Request for information

Dear Mr. Origgi

I'm currently trying to collect financial figures from all Swiss Universities, about what has been paid or will be paid to the publishers Elsevier, Springer and Wiley during the years 2010-2016. Therefore I wanted to ask you kindly, if you could provide me with the spending of the Biblioteca universitaria di Lugano. As I understand the Legge sull'informazione e sulla trasparenza dello Stato (LIT) is not yet active, so it's rather an informal than formal request.

Of interest are numbers narrowed down to the sections journals (print and electronic), ebooks and databases.

Please note, that in other countries like US or UK similar requests were successful and might help libraries to save money.
